

# LON8D420 IBM Lotus Domino Designer v8 : nouvelles fonctionnalités

## CONNAISSANCES PREALABLES

Expérience de travail dans un environnement IBM Lotus Notes Domino V8  
Utilisation du client Notes V7 ou V8  
Expérience en administration de systèmes

## PROFIL DES STAGIAIRES

The target audience for this course is experienced Lotus Domino 7 administrators who require early exposure to new Lotus Domino and Lotus Notes 8 features that impact system administration.

## OBJECTIF

Ce cours présente aux stagiaires les concepts de base de l'administration Notes/Domino 8

This course covers the changes in the Lotus Domino 8 administration and user environments, including installing and configuring Lotus Domino 8 servers and Lotus Notes 8 clients, implementing new messaging features, managing users and clients with administration enhancements, administer servers using administration enhancements, deploying composite applications, and migrating a Lotus Domino 7 environment to Lotus Domino 8 and Lotus Notes 8.

Examining the Lotus Domino 8 Environment  
Identifying new Lotus Domino 8 administration features  
Identifying new features in Lotus Notes 8 clients  
Installing new Lotus Notes 8 clients

## CONTENU DU COURS

### Implementing New Messaging Features

Enabling Message Recall  
Using Out of Office Service Enhancements  
Controlling Inbox Size with Inbox Maintenance  
Implementing General Messaging Enhancements

### Managing Users and Clients with Administration Enhancements

Implementing New Client Policies  
Implementing New Client Security Features

### Administering Servers with Administration Enhancements

Using General Administration Enhancements  
Employing New Server Monitoring Options  
Implementing Database Redirection  
Implementing New Server Security Features  
Identifying Integration and Interoperability Enhancements

### Deploying Composite Applications

### Understanding Composite Application Deployment Fundamentals

Configuring Lotus Notes 8 Clients to Access Composite Applications on a WebSphere Portal Server  
Introducing Composite Application Provisioning  
Configuring Clients for User-Initiated Updates

### Migrating an Lotus Domino 7 Environment to Lotus Domino 8 and Lotus Notes 8

Upgrading Lotus Domino 7 Servers to Lotus Domino 8  
Upgrading Lotus Notes Clients to Lotus Notes 8

**Remarks** Ce stage participe à la préparation du test :  
**Exam 802 - "IBM Lotus Notes Domino 8 System Administration Update"**
